CONTENTS AND SOREHEADS,

And Says that Some of Them Don't Rnow a Manistick from an Alpenstock - The Committee's Side of the Controversy. There are two sides, it appears, to the question which created such a stir in the world of art recently when a lot of painters gathered together and cried out that their works were being maliciously crowded out of the exbition to be held at the World's Fair. Mr. V. M. Chase, who is a member of the jury of election, says it is all a tompest in a tenpot. and he intin:ates that the calorio properties are furnished by malcontents who don't know a maulstick from an alpenstock. When seen at his studio in West Tenth street yesterday afternoon Mr. Chase smiled good-naturedly

In the first place, the informants of the man who wrote the article in yesterday's Sur succeeded in twisting facts in an admirable way. They said that Mr. Halsey C. Ives is a business man. That is not so; he is an artist. He has plenty of executive ability, and he is just the man to have charge of the art exhibition at the World's Fair. Mr. Ives nover suggested that pictures be divided into groups of

just the man to have charge of the art exhibition at the World's Fair. Mr. Ives nover suggested that pictures be divided into groups of landscapes, marines, &c. That idea was expressed by Boyd Thatcher, who has been giving the piano people so much trouble, and it was never considered for a moment.

"I see, too, that the kickers object to our dividing pictures into throe classes. We have adonted that scheme as the caslest way out of a difficulty which must face every jury. If we pass a lot of pictures which we consider worthy of being hung at Chicago and find that there is only room for two-thirds of the canvascs, we shall have to weed out the less meritorious in favor of the best. If, however, as we pass upon a picture, we note it as of the first, second, or third grade, we can save much time when the hanging time comes by leaving out those marked as of the third quality.

"We expect to have a very fine lot of pictures by European artists at the Fair, and as a matter of pride we want the American exhibit to represent the highest grade of American artist we can't accept a picture because its artist has painted some good things. For instance, Frederick Remington sent us a canvas which we rejected because we knew it did not represent his heat work. It was just after he had sold all his good paintings, and he probably had nothing else to send us. But Remington is a good American artist, and I am sure will be represented in the American exhibit.

"Furthermore I was surprised to read that Mr. Mornn was disastisfied. I don't believe it. He saked the jury to visit a picture at his studie, We went there and accepted the painting, and it will he hung at the Fair.

"The truth of the whole matter is that there are a lot of soreheads who are displeased because they can't raint, and because we, as a jury, have officially told them so. The good men have no fault to find. These other fellows want notoriety, and if the newspapers care to give it to them the would suggest. The kickers were silent them, because they could not ver

FREE SILVER MEN IN CONVENTION. Mrs. Lease of Kansas Entertains the Dele

gates With a Speech.
Washington, Feb. 22.—The first annual Convention of the American Bimetallic League was called to order this morning by its Prosident, Gen. A. J. Warner. About fifty delegates from the Western States were present, including Gen. Weaver, the candidate for President of the People's party, and Mrs. Mary Lease of Kansas. Gen. Warner stated the aim of the League to be the securing of legislation for the free and unlimited coinage of silver. Gen Wenver dolivered an address, and then Mrs. Lease was introduced to the Convention

She said that the people of the West had felt the crushing effects of legislation en-neted by the two great political parties for the past thirty years. This legislation she com-pared with the "conspicuous patriotism of lefferson Davis," legislation that gave to the State of Massachusetts many millions of dollars and deprived the Western farmers of the slightest recognition. The people of the West, she said, demanded free trade, free silver, and free citizens, and if there is anything else good in sight they are in favor of that also. They realized that God was the light to bestow free trade, and they held that congress had no right to restrict it. They demanded competition in the open markets of the world, the expense of the Government to be maintained from an income tax. She attributed the present linancial condition of the country to the "joint efforts of John Bull and John sherman, who fastened the existing statutes upon us," speaking of the tariff, Mrs. Lease said that the duty on the was one of the many reasons that brought the licenshiest party to its condition, and she added: "The inging of that the kepublican party."

Senator Siewart said that the Secretary of the Treasury, when he wanted to learn the wishes of the people, usually visited New York bankers. Not only did he do this, but he used his influence to send commissioners to Europe to beg of foreign Governments the permission to exercise our right of legislation. Wall street, the Senator said, nominated, both State of Massachusetts many millions of dol-

mission to exercise our right of legislation. Wall street, the Senator said, nominated both candidates of the political parties for Frest-dent, and from neither man need the friends of sliver expect anything. The people say that the last campaign was a fraud, and would right it four years hence.

TO GET RID OF JUDGE DUBOSE.

Memphis Law and Order People Want the Legislature to Abolish His Office.

MEMPHIS, Feb. 22.-Judge Dubose is in danger of losing his place. The Law and Order League has decided to memorialize the Legislature, now in session, to abolish the Crimina Court and establish in its stead a second Circuit court having criminal jurisdiction. avowed purpose is to rid the county of the obnoxious Judge. This method is adopted as incurring less delay and expense than by imeachment proceedings. The memorial was drawn up and signed by nearly 100 members of the league, and a committee will at once canvass the city and county for signatures.

But the Judge does not propose to be deposed without a struggle. His friends were posed without a struggle. His friends were out to-day with a counter petition almost as soon as the other was in circulation, asking that the court he not abolished, setting forth that the action was directed against the Judge of the court, and demanding that specific charges be made, and that he shall have an opportunity to defend himself. During reconstruction days the method of abolition was resorted to to get rid of an obnoxious Republican Judge. Later a Supreme Court decision in a case parallel to that of the Duhose case held that the Legislature could not thus abolish a court and devolve its duties on another court for the sole purpose of deposing the incumbent.

the incumbent.

Strangely enough, some of the leading lawgres in the Law and Order League admit that
deposition cannot legally be made. They propose, however, to do it and let Judge Dubose
fight for his rights. The Supreme Court
would not reach the case until the April term
of next year, and in August, 1884, Judge Dubose's term would expire. This, they say, is
the only way to reach him, and they hold that
with such a man to deal with the end would
justify the means.

ORANGE, N. J., Feb. 22.- The twenty-ninth annual meeting of the New York Association of the New Church Swedenborgian was held at the house of worship of the Orange society today, and a long debate took place over a resolution "that the Board of Directors be authorized to employ women as missionaries, teachers, visitors, or for such other purposes as they may think desirable." In a long report its passage had been recommended by a majority of the committee to which it was referred at the last meeting, namely: C. C. Parsons, the liev. C. H. Mann. Miss Jane B. Dearborn, and Mrs. John C. Agor. This was on the ground that women were entitled to recognition in domestic and public matters, and on every plane of life's energies." A minority report, signed by the Rev. S. S. Seward. J. M. Nicol, and Miss E. F. Warren. opposed the resolution. This report asserts that the purity and individuality of woman's sphere should be maintained. JOHNNY REGAN'S SAVINGS.

ELEVATOR BOY DIES LEAVING AN ESTATE OF \$3,000.

en Teors Ago Me Came Here Penniless From Ireland-His Little Fortune Made by Service in the Fifth Avenue Hotel. Ten years ago John W. Regan, a brightlooking Irish boy, 13 years old, landed at Cas-tle Garden and proceeded to look about for something to do. For two days and nights Regan wandered about the city, hungry and without shelter. Then he happened to meet the late Father lilordan who, hearing the lad's story, bought him a suit of clothes and secured a place for him as beliboy in the Fifth Avenue Hotel. Bagan at once became a favorite in the hotel, and when, six years ago, he sent in an application asking to be made an elevator boy, he was at once raised to that place. Regan, when not called upon to attend to business, passed the time in reading, and he soon became remarkable for

his fund of general information. After he had been in the hotel a year or two. Regan began to save his money, which he deposited in a bank. As the amount increased he made a few small investments, which seem to have turned out luckily. Began did not live in the hotel. About four years ago he took a small room at 200 West Fifty-third street, and the people living in the house say that when not at the hotel he spent nearly all his time in his room, reading or studying.

A couple of months ago Began complained of feeling unwell, and knoc42 off work as he supposed only for a few days. The young man, however, never returned to his old post in the hotel. He was advised to see a doctor, but lauched at the idea, and said that he could not afford to throw away his money for nothing. Two weeks ago he breams so much worse that a doctor was called in. He found Began suffering with pleurist, and advised his removal to Bellevue Hospital. In spite of every care the young man sank rapidly. The rientity developed into pneumonia, and a week ago on Monday night Began died.

Then Mrs. Banta, the landlady at his boarding house, remembered that some time ago logan had shown her an account with a bank in the city, and that it had been rumored that the young man was well off. She visited the effice of the Public Administrator and reported the matter. Public Administrator hoes sent two officers to examine the effects of the deceased, and to take charge of them until they had been disposed of according to law. In the bottom of legan's trunk papers were lound showing that the dead clevator boy had left over \$1,000. No soone was this made public than several persons who claimed to be relatives appeared, and showed an unusual interest in his affairs. The janitor of 200 West Fifty third street said yesterday.

"Those cousins and uncless and aunts never paid any attention to the boy before ie died or visited him in the hospital. No sooner had he died, however, than they began a spirited contest among themselves for the body. I suppose they expect to get a slice of the bank account."

Began was buried in Calvary Cemetery on Monday and an effort will be made to discover to have turned out luckily. Regan did not live in the hotel. About four years ago necount."

Liegan was buried in Calvary Cemetery on Monday, and an effort will be made to discover the whereabouts of his father in Ireland. to whom will be sent the savings of the young

BIG BLAZE IN FLATBUSH.

The fire occurred about midnight in the basement of 23, owned by Henry Williams. and spread with such rapidity to the adjoining buildings on each side that the occupants were glad to get out with their lives. All the were glad to get out with their lives. All the houses were two stories in height, with basements, and so flimsily constructed that the flames swept through them as if a timerbox had been ignited. The Flatbush Fire Department could do little more than prevent the fire spreading to the buildings on the adjoining blocks. A high wind prevailed, and all the houses were almost totally destroyed. The total loss will reach about \$30,000, and the insurances about the same amount. There is a suspicion that the fire was incendiary. Mr. Williams and his family, the occupants of the house in which the fire broke out, were absent at the time.

MONTGOMERY, Ala., Feb. 22.-The Advertiser Tuskegie special despatch reports an attendance of about 1,000 at the second annual negro Conference held there yesterday. The Conference adopted a series of declarations. These allude to the property of the race, the paucity of educational and religious advantages, thus leading to immorality and intemperance generally. They urge the discouragement of indiscriminate excursions and the erection of more commodious homes, call upon their women to cease loading upon the stfeets, and condemn the wasting of Saturdays. A better treatment of negroes by railroads is urged, and the belief advanced that this will benefit the race and add to the rovenues of the roads.
